---

*Come to Pasture Summit's On Farm Events this November, hosted by farmers for farmers, sharing ideas and developments on achieving profitable dairy food production, with input from dairy sector specialists.*

*We're in the business of turning grass to milk to cash - it's our key competitive advantage. Our host farmers are focused on achieving strong bottom-line financial performance and growth. They will present their costs and returns and discuss their farm management strategy to drive profit now and into the future.*

*Topics to be explored include Business Goals, Financial Results, Benchmarking, Pasture, Cows and Herd Reproduction.*

*A panel discussion will also explore equity growth pathways for progressive young farmers with aspirations to progress and grow in the sector.*
